

Supported Living

Whether you like to live with others or by yourself, we offer Supported Living options to suit you.

We know that having your own space is important and that everyone likes to live differently.

We match you to the living situation that best suits your support needs and individual goals.

Our Supported Living team will support you to:

- Achieve your goals
- Actively engage in your own life
- Build your capacity
- Encourage you to try new things
- Find supports that best suit you

Nexus houses have Team Leaders who make sure you get quality support and you will have a Key Worker to support you to achieve your goals including:

- Planning holidays
- Booking appointments
- Learning new skills to build your independence
- Socialising with other housemates

THE RIGHT SUPPORT AT THE RIGHT TIME

We support you to move into accommodation where you can live as independently as possible.

High Support Houses are built for people with high physical needs and can include hoists and mobility aids. These houses have 24 hour support.

Low Support Houses are good if you want to live independently but also want support staff around, including overnight, in case you require support.

One or two-bed units are available. In a two-bed unit a support worker can sleep over. In a one bed unit there will be a support worker sleeping over onsite supporting a number of clients.

In Home Support might suit you if you need support to get the skills and equipment required to stay in your own home for longer. We can also assist you to move from hospital or shared accommodation into your own place.
